

Pricelist BOD2 3D construction printer

On the following pages you will find the prices of the modular BOD2 3D construction printer in various versions. The printers come in various heights, widths and lengths.

More versions are available, but the most common have been mentioned. If you are missing the price of a particular version please contact us.

The price list has been made according to how many modules the printer has in the **height (Z-axis)**, and for this height various versions of width and length are mentioned. Currently we recommend a maximum of 4 modules on the Z-axis, with a maximum height of 10 meters.

The **width** of the BOD2 printers are determined by the amount of modules on the **X-axis**. On top of each page of the price list on page 3-6, printers with a width of 1 to 5 modules (with of 12 meters) can be chosen.

The **length** of the BOD2 printers are determined by the amount of modules on the **Y-axis**. On the left hand side of the price list one page 3-6, printers with a length of 1 to 18 modules (length of 45 meters) can be chosen.

Content of the price list:

Page 2:

- Additional items not included in the price of each printer.
- These items can be purchased according to your individual needs

Page 2:

- Payment terms

Page 3:

- One (1) module tall BOD2 printers; various models/sizes in width and length

Page 4:

- Two (2) modules tall BOD2 printers; various models/sizes in width and length

Page 5:

- Three (3) modules tall BOD2 printer; various models/sizes in width and length

Page 6:

- Four (4) modules tall BOD2 printer; various models/sizes in width and length

For each printer, the printable area (PA) is mentioned as well as the installation area size required (IA) and the price of the printer, excluding additional items.

All prices are net distributor prices excl. works in Euro, excl. VAT, excl. travel and accommodation cost as well as transport of the printer.

All prices are net distributor prices in EURO ex VAT, ex Works. Prices are indicative and may be subject to change

Additional items	Price
Tangential control of printhead	24.000€
Pump/mixer, weight control, 20 meter hose for concrete	32.000€
Silo, 4 m3	18.000€
Assembly of the printer at customers location	3.000€
Training per week	6.000€

Payment terms:

- 50% initial prepayment when placing order
- 40% second prepayment when printer is controlled and ready to leave Denmark
- 10% upon delivery at customers location

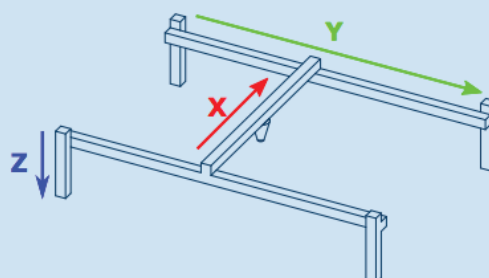

PA: Printing Area in meter (the effective area the configuration will be able to print)

IA: Installation Area meter (The overall size of the configuration when installed)

All prices are net distributor prices in EURO ex VAT, ex Works. Prices are indicative and may be subject to change
